Future Plan

Coming December 10, 2026

- Tree Saplings Initiative & Environmental Awareness Campaign
- Building Climate Resilience, Community Knowledge, and Sustainable Futures

Event Overview & Core Mission

Event Details:
Distribution and sale of **10,000 tree saplings** on December 10.

Pricing Policy:
YMCA Saplings: No fixed price (Donation/Accessible to all)
Other Vendors: Standard market prices apply

Core Purpose:
To promote community-level climate action and environmental education.

Objectives & Environmental Impact

Climate Resilience:
Mitigating the impacts of climate change and natural disasters through local afforestation.

Soil & Ecosystem Health:
Educating communities on underground root systems, water retention, and soil vitality.

Agricultural Advisory:
Providing expert guidance on proper tree traits, selection, and planting techniques.

Educational Focus
Empowering the Community:

- Raising public awareness on environmental protection.
-
  Practical tips on how to care for and nurture saplings for long-term growth.

Model Demonstration Plot & Community Training Center

Model Demonstration Plot (စုိက်ပျိုးေမြနမူနာ

- **Land Preparation:** Dedicated soil plots established for practical agricultural demonstration.
- **Regional Benefit:** Serving as a sustainable learning hub to directly benefit local farmers and the community.

Technology & Knowledge Transfer

Modern Agricultural Practices: Hands-on training in crop management, soil health, and land preservation.

Climate Adaptation & Resilience: Educating locals on mitigating climate change risks and adopting resilient farming techniques.

Capacity Building & Training

Interactive Workshops: On-site training sessions conducted directly at the demonstration plot.

Empowering Local Farmers: Equipping the community with practical skills for long-term sustainability.

Conclusion

To Be Better Place

- YMCA 10,000 Tree Saplings Initiative & Climate Awareness Campaign *(Dec10)*
- **Sapling Sales & Distribution Model**
  YMCA Donation-based Saplings vs. Vendor Market Pricing
- **Environmental Objectives**
  Disaster Mitigation, Microclimate Support & Groundwater Conservation
- **Model Demonstration Plot & Training Center**
  Soil Preparation, Community-focused Model Plot & On-site Agricultural Training
- **Expected Outcomes & Community Impact**
  Empowering Local Farmers, Climate Adaptation & Sustainable Land Management

Thank you
